1. [REDACTED] is a Defense Intelligence Agency employee who is being assigned to the Intelligence Community Staff at the request of [REDACTED] to work on the SAFE program. During her assignment, which will be less than one year in duration, she will be assigned to the Office of Assessments and Evaluation at the Community Headquarters Building.

2. A review of records maintained by the Agency reflect no record on [REDACTED]. It is probable that DIA has conducted a background investigation on her in the past as she has worked for them for the last 12 or 13 years. It is also conceivable that she may have been granted SCI access during her stint with DIA.

3. [REDACTED] has requested that expedite action be undertaken in order to approve [REDACTED] for assignment to the Intelligence Community Staff. He originally asked that a 1 December 1982 deadline be established, but he has been told that meeting this deadline is quite unrealistic since a full field investigation and polygraph will be required. He has accepted this but has asked that the case be completed by 1 January 1983.

4. Appropriate paperwork is being hand carried from the Intelligence Community Staff to the Office of Personnel requesting that official action be undertaken in obtaining the services of [REDACTED]. This paperwork should be received in the Office of Security from the Office of Personnel in the very near future.

5. Per our telephone discussion of 4 November 1982, it would be appreciated if your office would contact DIA to determine what investigative coverage, if any, they have undertaken regarding [REDACTED] during her employment. If they have a favorable investigation which is less than five years old, it would be appreciated if we could establish a polygraph date for [REDACTED] and conduct the background investigation on a supplemental basis provided that she satisfactorily passes the polygraph. [REDACTED]

6. To accommodate you in making your preliminary inquiries, I am forwarding herewith part one and part two of the personal history statements provided by [REDACTED] a self-identification sheet and an authorization to release information.

7. Should you have any questions relative to this request, please contact me on [REDACTED]
